

Monroe Rubber & Plastic Material Order Reference Guide

When ordering square blocks specify the dimensions of the block in the following sequence:

A = HEIGHT OF BLOCK (**MATERIAL THICKNESS**)

B = WIDTH OF BLOCK

C = LENGTH OF BLOCK

Example: When ordering a block with a 5/8" height, 7/8" width, and 1 1/4" length, specify as follows:

A = 5/8" HEIGHT OF BLOCK (**MATERIAL THICKNESS**)

B = 7/8" WIDTH OF BLOCK

C = 1 1/4" LENGTH OF BLOCK

In this example the Rubber square is specified as follows: 5/8" x 7/8" x 1 1/4"
