

# The Science of Die Ejection

**Our only focus:** Engineering, manufacturing & supplying die ejection materials. No one else can say that.

## 10000 SERIES, die ejection elastomer made specifically for recycled corrugated board.

### SOFT, FAST, EJECTION: FOR RECYCLED CORRUGATED BOARD.

The challenges with recycled board continue to push us to develop products to meet your required standards. Up until now, our 22000 and 12000 Series have been the perfect pairing, but we weren't satisfied. We wanted one product that did it all; crush free product ejection, good scrap elimination, and at a low cost.

### INTRODUCING OUR NEW 10000 SERIES

- Slightly softer than 12000
- Priced lower than 12000
- Fast Rebound
- Multiple Colors Available
